REMARKS

Restriction was required to one of:

Invention I: Claims 1-9, 20-26, and 30-33 drawn to a method of registering a shortcut name corresponding to a frequently requested destination, classified in class 704, subclass 243.

Invention II: Claims 10-12 and 27-29 drawn to a method of deregistering a shortcut name corresponding to a frequently requested destination, classified in class 704, subclass 244; and

Invention III: Claims 13-19 drawn to a system comprising a user profile database containing a plurality of registered shortcut names for use in registering and/or deregistering shortcut names, classified in class 704, subclass 270.

Applicants elect Invention I (Claims 1-9, 20-26, and 30-33), without traverse, to further prosecute in this patent application. The remaining claims 10-19 and 27-29 are retained in this application, unexamined, pending allowance of generic or linking claims such as claim 1.

Respectfully submitted,
